SUMMARY

Senior Frontend Engineer with 7+ years of experience building SaaS and enterprise web applications using Vue, Nuxt, React, and TypeScript. Previously worked as an Engineering Manager, now focused on hands-on frontend development and scalable product architecture.

PROFESSIONAL EXPERIENCE

Koltiva, Engineering Manager (Hands-on Frontend) Oct 2023 - Present

- Worked closely with head-level stakeholders (Product, UX, Business) to define product direction and align technical implementation with business goals
- Designed and built EUDR compliance workflows, translating complex regulatory requirements into scalable UI and validation logic
- Built integration with EU Information System (EUIS) for compliance data submission (GeoJSON, farmer and operator data)
- Implemented shared authentication (SSO-like experience) across multiple internal applications
- Co-created company-wide design system and contributed to LMS frontend architecture (~50% delivery)

Mister Aladin Jul 2018 - Sept 2023

Frontend Lead Jan 2022 - Sept 2023

- Owned frontend architecture and technical decisions across multiple booking verticals (Hotel, Flight, Train, Activities), ensuring scalability and performance.
- Increased design system adoption from 10% to 70%, improving UI consistency and accelerating frontend development across teams.
- Drove frontend standards and technical direction, including design system evolution and TypeScript adoption across multiple products.

Frontend Engineer Jul 2018 - Dec 2021

- Migrate hotel and core pages from Laravel (Blade) to Nuxt.js (SSR), improving maintainability, frontend scalability, SEO performance, and initial page load speed.
- Optimized cart and checkout performance, reducing average load time from ~60s to ~20s (~67% improvement).
- Migrated product search from GraphQL to Algolia InstantSearch, enabling faster and scalable real-time search.
- Designed and implemented a reusable search bar architecture supporting multiple booking verticals, reducing duplication and accelerating development.
- Delivered an end-to-end Flight + Hotel bundle booking flow within 2 months.
